

Indoor Go Kart Racing

Experience the thrill of go kart racing while you navigate sharp twists & turns of the Monaco inspired racetrack. Not to be confused with regular go karts, these are hand crafted, powerful electric karts that fly on the track at over 20 MPH. Racing at Monaco Indoor Karting is scored in a Fastest Lap format, where the driver gets in the karts in a random order and race for a set number of laps. Adult Races are 6 minutes long. The driver with the best lap time wins the race.
