

Our Park City Story

January 8, 2019 to January 13, 2019

Park City, Utah, home of the 2002 Winter Olympics and the South Jersey Ski Club in early January. There were 64 members who traveled to Park City arriving on a Tuesday night to prepare for a four-day fabulous ski trip.

There was a mountain tour that took the participants to all parts of the mountain. The guide explained that the resort was opened in 1963 as Treasure Mountain and was originally a mining camp. We saw many old structures along the trails that are still standing today.

Park City has gondolas, canyons, bowls, groomed trails, hidden powder and après ski.

There were too many people on this trip to mention, so I'll leave you with these pics..a good time was had by all. Below is our Welcome Reception with most of us there. Next time, please join us for good skiing and another great time!!
